Visor Grande Bikini Installation Instructions

Failure to follow the installation instructions below may cause unrepairable damage to the bikini top! Always install and latch header bow before securing the top to the rear of the car!

Step 1: Carefully have a friend help you unwrap your new top and place it on the rear of your car pointing the support bows to the pivot pins.

(2 bend bow)

Step 2: Attach the Rear Bow first and then the 4-Bend Bow over the Rear Bow. Then attach Top Frame Clip.

P/N N90254701

Step 3: Bring header bow forward and insert alignment pins onto windshield frame. Then bring 4-Bend bow forward to this position.

4-Bend bow

Step 4. With the visor bow over windshield frame. Latch bow to the windshield.

Always latch header bow prior to any further installation of your top. Attempting to latch your header bow after rear top area is installed will cause unreparable damage to your header bow!

Park car out in the sun for a few hours to help soften the material before further installation!

Step 5. Go to the rear corner and adjust the material as shown.

Step 6. With a friend, pull rear corners down and hook onto body loops

Hook onto body loops and secure by threading straps through the loops.

Repeat for opposite side

Fold down instructions:

1. Un-attach body loops from latches.
2. Fold corners as shown.
3. Unlock header bow from windshield.
4. Fold back top to the rear of the vehicle whilst lowering 4-bend bow.

Use top hold down straps to secure top while driving. Wrap header bow in soft blanketed as needed before securing.
